Lokesh Bomma

## Objective

Motivated and passionate Frontend Developer with hands-on experience in building responsive websites using **HTML, CSS, JavaScript, React.js, and Tailwind CSS** through personal projects. Eager to apply my skills and creativity in a professional environment, learn from industry experts, and contribute to building user-friendly web applications.

## Technical & Non-Technical Skills

- **Languages:** HTML , CSS , JavaScript , C++ , Java , JSON
- **Frameworks :** React.Js , Tailwind CSS

## Education

### C.B. Patel Computer College

#### Bachelor of Computer Applications (BCA) – 3rd Year

2023-2026

- CGPA: 8.55 (up to 4th Semester)
- Currently pursuing 5th Semester

## Personal Projects

### Real Estate

A modern frontend single-page application showcasing real estate properties with a smooth and responsive user interface.

- Integrated **Web3 Forms** for handling email submissions without backend setup.
- Used **Toastify** for user notifications to enhance user experience.
- Added UI animations using **Framer Motion** for interactive feel.
- Fully responsive design built with **Tailwind CSS**.
- Deployed live on **Netlify** for easy access.

**Tech Stack:** React.js, Tailwind CSS, Web3 Forms, Toastify, Framer Motion, Netlify

**Live Demo:** <https://realestatelokesh.netlify.app>

### Spotify Clone

A responsive frontend clone of the Spotify music streaming platform, focused on replicating its user interface and layout.

- Designed a sleek and modern UI inspired by Spotify using **React.js** and **Tailwind CSS**.
- Implemented smooth navigation and reusable components for playlist sections, song lists, and sidebars.
- Added interactive hover effects and responsive layout for mobile and desktop views.
- Deployed on **Netlify** for live preview and fast performance.

**Tech Stack:** React.js, Tailwind CSS, JavaScript, Netlify

**Live Demo:** <https://SpotifyCloneLokesh.netlify.app>

### KhethiSolve

Hackathon Project – Sutex Computer College, Amroli

- Designed the UI/UX prototype using Figma before development.
- Developed a fully responsive frontend in 1 hour using HTML, CSS, Bootstrap, and JavaScript, leveraging ChatGPT to assist with coding and problem-solving.
- Focused on a government-related agricultural topic with a user-friendly interface.
- Deployed the website live on Netlify ensuring accessibility on all devices.
- Gained experience integrating AI-assisted development tools to accelerate frontend coding under tight deadlines.

**Tech Stack:** HTML, CSS, Bootstrap, and JavaScript, ChatGPT, Netlify

**Live Demo:** <https://khethisolve.netlify.app>

## Achievements

- **Crack the Code**  
2<sup>nd</sup> Prize At Inter College Competition
- Participated in college tech events like Hackathon
- Scored **8.55 CGPA** till 4th semester (BCA), with strong performance in programming and database subjects.
